

Reading Strategies for Career Academies and Career-Technical Education

Many secondary students cannot understand the reading they need to do for their courses, yet few have the opportunity to sign up for a reading class. Who, then, must become accountable for teaching reading skills to secondary students? The answer is all teachers in all courses.

This adaptation of *Strategic Reading in the Content Areas* is intended for teachers in career academies

and CTE programs. The reading-to-learn strategies and the tips for reading different types of materials are tailored to the content of career areas and technical education. The kit helps teachers learn how to use reading comprehension strategies and techniques to increase students' comprehension, their ability to retain what they have read, and their academic achievement in general. The kit includes a CD-ROM with teaching masters and handouts.

Table of Contents

Overview

How to Use this Resource Kit
Teacher to Teachers

I. Comprehension in Context

1. Reading Skills for a Changing World
2. Lexile: The "Science" of Learning to Read
3. Infusing Reading Strategies in the Classroom
